

Agape International is a non-profit organization that strives to care for those most effected by the global AIDS crisis. Agape provides homes, nutritious meals, medical care, and education to more than 250 children in Hyderabad, India impacted by AIDS. Agape's efforts offer these children, many of whom are orphans, the opportunity to survive and prosper.

Most donors choose to support younger children, so **Jan Luchetti Interiors** is proudly sponsoring an HIV-positive teenage orphan, Ravi Kishore, to attend college.

“Agape” means love. If you want to learn more about supporting or donating to Agape International by sponsoring a child, supporting the Education Fund, or helping pay for Agape's holiday meals, **click here**.

If you are interested in becoming involved, there are numerous volunteering, fundraising, and campaigning **opportunities** in both the US and India. To learn more about this inspiring organization, please contact **Lynne Guhman-Voggu**, the Executive Director of Agape International.
