

Jennifer's Gift of Hope is a foundation created for Maynard and surrounding Massachusetts communities that strives to help individuals and families who are battling cancer. Our foundation's goal is to support families in these communities who incur overwhelming hardships due to a diagnosis of cancer.

The foundation was started by the Long, DiSilva and Luchetti families to honor Jenn's wish to be able to help others endure what she and her family faced. 100% of all money raised for this foundation is allocated to those in need. Jennifer's family volunteers their time.
